

EASE-ing into the golden years

Do you have a family member aged 65 and above? You can improve their mobility and comfort by helping them apply directly for the Enhancement for Active Seniors (EASE) programme.

You don't need to wait for the flat to undergo the Home Improvement Programme to get the EASE improvement items. With up to 95% subsidy*, EASE can equip homes with grab bars, slip-resistant treatment to existing toilet floor tiles, and ramps.

**for Singapore Citizen households, depending on flat type*

-  Check eligibility and apply for EASE via:
