

Median Resale Prices by Town and Flat Type, for Resale Cases Registered from 2nd Quarter 2007 to 1st Quarter 2025

The statistics below provide the median prices for resale transactions of a particular flat type in a given town. This is based on resale cases registered in the quarter. The median price (at 50th percentile) tells you that half of the flats transacted during the quarter were sold above the median price and half were sold below the median price. The median resale prices are inclusive of COV for transactions where resale prices are above market valuations.

Legend

Here are the notes and legends for the symbols used in the following tables:

- (-) indicates no resale transactions in the quarter
- Asterisks (" * ") refer to cases where there are less than 20 resale transactions in the quarter for the particular town and flat type. The median prices of these cases are not shown as they may not be representative
- The data excluded transactions that may not accurately reflect the market price; i.e. resale of part shares, resale between related parties, cases under the Conversion Scheme, resale of terrace flats and converted flats
- The figures are rounded to the nearest hundred dollars

The following tables show the median resale prices by town and flat type for resale cases registered since 2007:

2025
