

POLYMER TECHNOLOGIES PTE. LTD.

Air-Con Compressor Tray

Here comes the latest patented invention; An air-conditioned tray, at a timely intervention. No more stagnant water for mosquitoes to breed; No more irritating noise from condensation drips; Provides lasting tranquillity for a good night sleep.

Key Benefits:

- No water retention
- No mosquito breeding
- No dripping noise
- No splashing
- No rust (lightweight polymer tray)
- No inconvenience to neighbours
- No hassle (fits all compressors)

Design fulfils requirements from relevant housing and environmental authorities.
