About National Environment Agency:

Formed on 1 July 2002, the National Environment Agency (NEA) is the leading public organisation responsible for improving and sustaining a clean and green environment in Singapore. The NEA develops and spearheads environmental initiatives and programmes through its partnership with the People, Public and Private sectors. It is committed to motivating every individual to take up environmental ownership and to care for the environment as a way of life.

By protecting Singapore's environment from pollution, maintaining a high level of public health and providing timely meteorological information, the NEA endeavours to ensure sustainable development and a quality living environment for present and future generations.

About Housing & Development Board:

The Housing & Development Board (HDB) is the public housing authority in Singapore. Born in a crisis to address an acute housing shortage situation, HDB has today successfully housed more than 80 percent of Singapore's resident population in well-designed apartments located in comprehensively planned housing estates. Beyond the hardware of public housing, the fostering of bonds between communities is also of utmost importance to HDB. HDB's efforts in housing a nation has earned much international acclaim, including the 2010 United Nations Habitat Scroll of Honour Award. For more information, visit www.hdb.gov.sg.
